PROFILE

Final-year Information Technology student with hands-on experience in mobile and web app development using Kotlin, React, Firebase, and Room Database. Skilled in data analysis with Python, NumPy, and TensorFlow, with a solid grounding in UI/UX design, debugging, and deployment. Proficient in problem-solving and team collaboration to build scalable, efficient solutions.

WORK EXPERIENCE

Mobile Application Developer

Sibbo Medical Devices 09/11/2023 - 01/04/2024

- Designed UI/UX, defined app features, and optimised user experience.
- Developed mobile applications in Kotlin, adhering to modern Android development best practices.
- Conducted debugging, testing, and app deployment.

Web App Developer

AusculThing Oy 29/06/2023 - 17/09/2023

- Designed UI/UX, implemented front-end using React, and integrated Firebase for database management and authentication
- Performed debugging, testing, and successful app deployment.

Production and Logistics

JedX Medcare 29/03/2021 - 31/12/2022

- Oversaw production of medical-grade respirators, conducted quality control inspections, and managed packaging operations

Newspaper Delivery Worker

Posti Group Oyj 17/07/2016 - 12/09/2016
& 27/08/2020 - 14/01/2021

- Delivered newspapers to customers in a timely and efficient manner, ensuring high levels of customer satisfaction

Supervisor

SOL Palvelut Oy 24/06/2014 - 26/04/2023

- Supervised hotel operations, training staff and ensuring high-quality customer service.

EDUCATION

Bachelor's Degree in Information Technology Major in Mobile Solutions

Metropolia UAS
